BOOK 1

SURVIVAL MANUAL

Preface

You could find yourself alone in a remote area—possibly enemy territory—with little or no personal gear. This manual provides information and describes basic techniques that will enable you to survive and return alive should you find yourself in such a situation.

If you are a trainer, use this information as a base on which to build survival training. You know the areas to which your unit is likely to deploy, the means by which it will travel, and the territory through which it will travel. Read what this manual says about survival in those particular areas and find out all you can about those areas. Read other books on survival. Develop a survival-training program that will enable your unit members to meet any survival situation they may face. It can make the difference between life and death.

ARSOF execute and are the functional proponent for UW under United States Special Operations Command (USSOCOM) Directive 10-1, Terms of Reference for Component Commanders, and other authorities. Currently, there exists no authoritative interagency or joint doctrine specifically for UW—although sufficient joint doctrine does exist for general campaign design and execution of joint and Army operations. This manual is the overarching doctrinal reference that specifically addresses UW as conducted by ARSOF. Detailed TTP for UW can be found in FM 3-05.201, (S/NF) Special Forces Unconventional Warfare (U).
