Cathy is learning to ride her bike, but she becomes upset when her crashes hurt too much. Will Mom and Dad be able to help her understand the importance of failure and how it leads to success? Perhaps with a little help from a family of birds and some ice cream, Cathy will find her way. Naturally Learning Books are designed to teach conservative life principles to kids, without political terms getting in the way of the fun. These books use nature for examples to show your kids that these conservative principles are universal. They are a great way to counteract the poor life lessons children tend to learn on TV and even in the classroom. This book can help kids to learn that failure is a natural way to learn and grow. If we prevent people from failing, we will prevent them from growing as well. The colorful illustrations help kids to feel like they're right there in the story, learning with Cathy and her family.
