Basics: Anesthesia Intensive Care and Pain in Neonates and Children

This volume, the first of a new series, deals with the basic aspects of anaesthesia, intensive care (IC) and pain in neonates and children. Internationally recognised guidelines aimed at standardising the most important procedures, such as the treatment of hypothermia, are also discussed. The book includes contributions from anesthesiologists from The Hospital for Sick Children, which is affiliated with the University of Toronto and is Canada's most research-intensive hospital.
