Negotiating Cultural Identity: Landscapes in Early Medieval South Asian History (Archaeology and Religion in South Asia)

Negotiating Cultural Identity: Landscapes in Early Medieval South Asian History (Archaeology and Religion in South Asia)

This volume breaks new ground by conceptualizing landscape as a dynamic cultural complex in which the natural world and human practice are inextricably linked and are constantly interacting. It examines the social and cultural construction of space in the early medieval period in South Asia, as manifest in society, religious architecture and as shaped through trade and economic transactions.
