The Companioning the Grieving Child Curriculum Book: Activities to Help Children and Teens Heal (The Companioning Series) Patricia Morrissey MEd

Based on Alan Wolfelt's six needs of mourning and written to pair with *Companioning the Grieving Child*, this thorough guide provides hundreds of hands-on activities tailored for grieving children in three age groups: preschool, elementary, and teens. Through the use of readings, games, discussion questions, and arts and crafts, caregivers can help grieving young people acknowledge the reality of the death, embrace the pain of the loss, remember the person who died, develop a new self-identity, search for meaning, and accept support. Sample activities include grief sock puppets, expression bead bracelets, the nurturing game, and writing an autobiographical poem. Activities are presented in an easy-to-follow format, and each has a goal, an objective, a sequential description of the activity, and a list of needed materials.
