Designed for law teachers who want to improve their teaching and students' learning, this book offers general teaching principles and dozens of concrete ideas. The first two chapters present foundational principles of learning and instruction as well as insights from students. The next 12 chapters address classroom dynamics, technology, questioning, discussion, collaborative learning, experiential learning, feedback, assessment, and continued development for teachers. Each of these 12 chapters introduces the topic based on educational research and then offers classroom-tested exercises, approaches, material, and methods contributed by veteran teachers.

The co-authors/editors are experts in legal education pedagogy. *Techniques for Teaching Law 2* retains the format of the first volume, but introduces new content and new ideas that instructors of any level and background will find useful.
