Theories of Development, Second Edition: Contentions, Arguments, Alternatives Richard Peet Phd, Elaine Hartwick PhD

Widely adopted, this text critically evaluates the leading theories of international economic development, from classical economic and sociological models to Marxist, poststructuralist, and feminist perspectives. No other book provides such comprehensive coverage or links the theories as incisively to contemporary world events and policy debates. Reexamining neoliberal conceptions of economic growth, the authors show what a more just and democratic form of development might look like today.
