The purpose of this volume is to present the scientific background of the *Children's Literature and Translation* research group, which was established in 1992 at the University of Vigo. In 2006 it was awarded the category of Excellence Research Group. The scientific activities of members over the twenty years it has been in existence have contributed to improving and intensifying research into children's literature in Spain and also to raising its scientific status. The group has strengthened collaboration with other Spanish universities and opened fruitful cooperation with foreign research centres. This book shows some new research lines we are focussing on and reflects current research trends in Children's Literature in Spanish universities.
