## Approaches to Middle English: Variation, Contact and Change (Studies in English Medieval Language and Literature)

This volume contains a selection of papers presented at the 8<sup>th</sup> International Conference of Middle English, held in Spain at the University of Murcia in 2013. The contributions embrace a variety of research topics and approaches, with a particular interest in multilingualism, multidialectalism and language contact in medieval England, together with other more linguistically-oriented approaches on the phonology, syntax, morphology, semantics and pragmatics of Middle English. The volume gives a specialized stance on various aspects of the Middle English language and reveals how the interdisciplinary confluence of different approaches can shed light on manifold evidences of variation, contact and change in the period.
