**A THEORETICAL PERSPECTIVE: On The Theory of Moral Sentiments** Dr. Michael Patrick Amos Back Matter/ Copyright 2011 by Author: DR. MICHAEL PATRICK AMOS. ALL RIGHTS RESERVED. "In this sequel to Amos(2011-c), Prof. Dr. Michael Patrick Amos presents A Theoretical Perspective: Smith(1759) Theomatics: i.e., The Origin of International Crises... is highlighted via a A THEORY OF MEDICAL FIRMS' BEHAVIOR introduced in section 3.3.2..of the present work, Amos(2011-d). Prof. Dr. Amos is convinced that the first edition of his scholarly work A Treatise to The Wealth of Nations: Appendix, published in April 2011 is to be widely distributed, as its perfection.. The present work is Amos(2011-d), and it is the first edition of an entirety new work and new text, authored by Prof. Dr. Michael Patrick Amos. On the one hand, Amos(2011-c) focuses on Full Employment of Unskilled-Households. On the other hand, Amos(2011-d) focuses on resolution of International-Crises. Thus, both works are intended for policy makers, economists and advanced student. The questions raised by audiences, since Amos(2001-c) are addressed in Amos(2011-d) within the context of A Theoretical Perspective, via the INTRODUCTION OF A MODEL OF MEDICAL-FIRMS' BEHAVIOR. Prof. Dr. Michael Patrick Amos augments his theoretical framework further in several important respects, and introduces A MODEL OF MEDICAL FIRMS' BEHAVIOR. The focus of the present analysis, here and hence forth called Amos(2011-d), is the demonstration that there exists a A Scientific Protocol, Outcome of International Political Machinery, consistent with an extension of Amos(2011-c).. Amos(2011-d) is a modern non-Walrasian framework within which intertemporal optimizing agents interact in an international setting. The distinguishing features of the present work are as follows: 1\_) The domestic economy exports medical-goods, i.e., Cure for T.B. 2\_) The domestic economy imports intelligence goods, i.e., The Scientific Protocol Against Terrorism. Theses extensions requires that Amos(2011-c) be augmented in several important respects: In section 3.3...Amos introduces two new types of economic agents into the Analysis: i\_) A Model of Medical-Firms' Behavior, and ii\_) a case specific A Model of Ailment-Firms' Behavior. The outcome of these augmentations is the obtainment of A Theoretical Perspective.. Amos(2011-d) model has as special cases the various counter-terrorism policies under-consideration by economists and international lawyers, in 2011. Smith's Complete Capitalism is enriched with "The Theory of Moral Sentiments", and Laissez-Faire." from Back Matter by Author: Prof. Dr. Michael Patrick Amos A Scholarly Monograph: On Advanced Open Economy Macroeconometrics: Section 3.3.2. of Chapter 3. Volume 1
