The Big Book of Endurance Training and Racing Philip Maffetone

Are you a triathlete, runner, cyclist, swimmer, cross-country skier, or other athlete seeking greater endurance? The Big Book of Endurance Training and Racing teaches athletes how to stay healthy, achieve optimal athletic potential, and be injury-free for many productive years. Dr. Philip Maffetone's approach to endurance offers a truly "individualized" outlook and unique system that emphasizes building a strong aerobic base for increased fat burning, weight loss, sustained energy, and a healthy immune system. Good nutrition and stress reduction are also key to this commonsense, big-picture approach.

In addition, Dr. Maffetone dispels many of the commonly held myths that linger in participatory sports—and which adversely impact performance—and explains the "truths" about endurance, such as:

- The need to train slower to race faster will enable your aerobic system to improve endurance
- Why expensive running shoes can actually cause foot and leg injuries
- The fact that refined carbohydrates actually reduce endurance energy and disrupt hormone balance
- And more.

If you are looking to increase your endurance and maximize your athletic potential, *The Big Book of Endurance Training and Racing* is your one-stop guide to training and racing effectively.

Robin Norfleet:

Are you kind of stressful person, only have 10 or even 15 minute in your day to upgrading your mind expertise or thinking skill also analytical thinking? Then you have problem with the book when compared with can satisfy your small amount of time to read it because all of this time you only find book that need more time to be go through. The Big Book of Endurance Training and Racing can be your answer given it can be read by an individual who have those short time problems.

Joseph Moody:

As a scholar exactly feel bored to help reading. If their teacher expected them to go to the library as well as to make summary for some book, they are complained. Just small students that has reading's heart and soul or real their interest. They just do what the educator want, like asked to go to the library. They go to presently there but nothing reading significantly. Any students feel that reading through is not important, boring as well as can't see colorful photos on there. Yeah, it is for being complicated. Book is very important for you personally. As we know that on this age, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. Therefore , this The Big Book of Endurance Training and Racing can make you truly feel more interested to read.
