Challenging Coasts: Transdisciplinary Excursions into Integrated Coastal Zone Development (Amsterdam University Press - MARE Publication Series)

Challenging Coasts: Transdisciplinary Excursions into Integrated Coastal Zone Development (Amsterdam University Press - MARE Publication Series)

Coastal zones are places where environments, cultures, and economies all collide and interact, and *Challenging Coasts* examines the important issues involved in managing coastal zones. Contributors to the volume argue that coastal zones pose a developmental rather than a management challenge and require a multidisciplinary response from the social and natural sciences. Thus papers collected here examine international case studies and address a variety of issues such as biodiversity protection and the legal concerns of habitat protection. *Challenging Coasts* is an important and invaluable resource for marine scientists and those interested in coastal zone development.
