ABOUT 'SMART READS for Kids'..."Love Art, Love Learning"

Welcome. Designed to expand and inspire young minds; this is a range of short educational books (with supporting free online resources) for ages 7+. Although one great artist's life and work are always the central theme, wider learning is encouraged as follows:

- * Geography & History. Locations or events mentioned are always accompanied by a colourful map or a snippet of history so that the opportunity to learn some general knowledge does not pass the young reader by.
- * Vocabulary. A manageable number of new words are introduced and reused. They are always in bold with clear definitions and pronunciations. There is also a Glossary.
- * Maths. At least one maths statement and its accompanying calculation is always included.
- * Concentration. Each book is in the friendly first person and a trail of footprints always leads to a cartoon animal at the end. The author asks questions of the reader and there is always a quiz. These features keep children engaged and encourage them to form their own opinions. There is a high ratio of images to text.

ABOUT JUNIOR LEONARDO DA VINCI

Da Vinci was of course far more than a great artist. The full journey of his life is covered including: an account of everyday Renaissance Italy with its tyrannous leaders, the historically precocious and inquisitive nature of Leonardo's mind, his inventions, the story of his secret mirror writing (which provides an opportunity to learn a little about shapes with symmetry) and the mysteries of the Mona Lisa. There's also a simple recipe for Renaissance paint and some dragon hunting!

On this journey children will encounter all of da Vinci's most famous paintings and drawings--no child will fail to be inspired.
