Take a thrilling walk on the dark side with Konstantinos! The author of Nocturnal Witchcraft presents a collection of magickal techniques for working with dark forces. Developed and tested by Konstantinos, these rites and rituals have proven to be quite powerful in harnessing nocturnal energies-even helping the author overcome a serious medical condition in a miraculous recovery that shocked doctors!

Drawn from diverse sources-ceremonial magick, folk magick, ancient Greek ritual, and divination-these techniques enable magicians and novices to conjure and control primal energies, thoughtforms, Lovecraftian entities, egregores, sigils, and other forces. Those attracted to the dark mysteries will relish Konstantinos' bold exploration of sex magick, death magick, altered states, dream grimoires, and forbidden tomes.
