Objectivity has a history, and it is full of surprises. In *Objectivity*, Lorraine Daston and Peter Galison chart the emergence of objectivity in the mid-nineteenth-century sciences -- and show how the concept differs from its alternatives, truth-to-nature and trained judgment. This is a story of lofty epistemic ideals fused with workaday practices in the making of scientific images.

From the eighteenth through the early twenty-first centuries, the images that reveal the deepest commitments of the empirical sciences -- from anatomy to crystallography -- are those featured in scientific atlases, the compendia that teach practitioners what is worth looking at and how to look at it. Galison and Daston use atlas images to uncover a hidden history of scientific objectivity and its rivals. Whether an atlas maker idealizes an image to capture the essentials in the name of truth-to-nature or refuses to erase even the most incidental detail in the name of objectivity or highlights patterns in the name of trained judgment is a decision enforced by an ethos as well as by an epistemology.

As Daston and Galison argue, atlases shape the subjects as well as the objects of science. To pursue objectivity -- or truth-to-nature or trained judgment -- is simultaneously to cultivate a distinctive scientific self wherein knowing and knower converge. Moreover, the very point at which they visibly converge is in the very act of seeing not as a separate individual but as a member of a particular scientific community. Embedded in the atlas image, therefore, are the traces of consequential choices about knowledge, persona, and collective sight. *Objectivity* is a book addressed to anyone interested in the elusive and crucial notion of objectivity -- and in what it means to peer into the world scientifically.

From reader reviews:

Rafael Runyan:

Information is provisions for people to get better life, information today can get by anyone at everywhere. The information can be a knowledge or any news even a huge concern. What people must be consider when those information which is in the former life are challenging be find than now's taking seriously which one is acceptable to believe or which one the actual resource are convinced. If you get the unstable resource then you have it as your main information there will be huge disadvantage for you. All those possibilities will not happen within you if you take Objectivity as your daily resource information.

Frances Savage:

People live in this new morning of lifestyle always attempt to and must have the spare time or they will get lots of stress from both lifestyle and work. So , if we ask do people have free time, we will say absolutely of course. People is human not a robot. Then we consult again, what kind of activity do you possess when the spare time coming to you of course your answer will unlimited right. Then ever try this one, reading textbooks. It can be your alternative with spending your spare time, the actual book you have read is Objectivity.

Mary Bradford:

A lot of guide has printed but it is unique. You can get it by web on social media. You can choose the very best book for you, science, comic, novel, or whatever through searching from it. It is called of book Objectivity. You'll be able to your knowledge by it. Without causing the printed book, it can add your knowledge and make an individual happier to read. It is most important that, you must aware about reserve. It can bring you from one destination for a other place.

Tracy Brown:

What is your hobby? Have you heard this question when you got pupils? We believe that that problem was given by teacher on their students. Many kinds of hobby, All people has different hobby. And you know that little person just like reading or as studying become their hobby. You need to understand that reading is very important and also book as to be the factor. Book is important thing to increase you knowledge, except your current teacher or lecturer. You discover good news or update in relation to something by book. Amount types of books that can you take to be your object. One of them are these claims Objectivity.
