**Hymns to the Night and Spiritual Songs (European Poets) Novalis**

NOVALIS: HYMNS TO THE NIGHT

A new edition of Novalis' Hymns To the Night, and Spiritual Songs, translated by George Macdonald, with an introduction and notes by Carol Appleby.

Includes the German text.

Novalis (Friedrich von Hardenberg, 1772-1801) is the most mystical of the German Romantic poets. He is at once the most typical and the most unusual of the German Romantic writers, indeed, of all Romantic poets. His best known work, Hymns To the Night, was published in 1800.

Novalis is supremely idealistic, far more so than Johann Wolfgang von Goethe or Heinrich Heine. He died young, which makes him, like Percy Shelley and John Keats, something of a hero (or martyr). He did not write as much as Shelley, but his work, like that of Keats or Arthur Rimbaud, promised much. For Michael Hamburger, Novalis' work is almost totally idealistic:

Novalis's philosophy, then, is not mystical, but utopian. That is why his imaginative works are almost wholly lacking in conflict. They are a perpetual idyll.

It's true, Novalis' work is supremely idealistic, and utopian. But it is also mystical, because it points towards the invisible, unseen and unknown, and aims to reach that ecstatic realm (Novalis is the most obviously mystical of the German Romantic poets, but Hölderlin, Goethe and Heine are no less mystical). Novalis wrote:

The sense of poetry has much in common with that for mysticism. It is the sense of the peculiar, personal, unknown, mysterious, for what is to be revealed, the necessary-accidental. It represents the unrepresentable. It sees the invisible, feels the unfeeling, etc... The sense for poetry has a close relationship with the sense for augury and the religious sense, with the sense for prophecy in general.

Glyn Hughes remarks of Novalis: 'The sustaining interest in the reading of Novalis's works is the sense of contact with a mind of visionary intensity and total commitment. The poetic achievement is in the momentary glimpses of ideal reality: what, in other contexts, we should call epiphanies. (61)
