Ever wonder how a suspension bridge can cross a gap thousands of feet wide? Want to know how to build a comfortable lounge chair out of cardboard boxes? Or what keeps a massive cathedral dome from collapsing? Discover the answers to these and many more questions in *Steven Caney's Ultimate Building Book*, a wonderfully comprehensive exploration of design, construction, and invention that will stimulate the curiosity of children and adults alike. Much as David Macaulay's blockbuster *The Way Things Work* did for machines and devices a decade ago, this definitive volume from best-selling author Steven Caney details the ins and outs of construction in all its fascinating forms. Packed with exciting building projects guaranteed to engage anyone from age 4 to 104, the Ultimate Building Book gives easy-to-follow instructions for creating amazing models and toys that are as much fun to make as they are to play with! Readers are also introduced to a wide variety of household materials and tools that can be used for building, along with fascinating insights into the architectural and design properties of everything from drinking straws to yurts. A mammoth project in its own right, this book has been under construction for more than a decade. The result is hundreds of superbly illustrated pages that will enlighten and fascinate armchair architects of all ages for years to come.
