inSyte: If suddenly you have all the answers... well that raises a lot of interesting questions. Greg Kiser www.gkiser.com inSyte is a paranormal-thriller - equal parts Chrichton, Clancy and King. It's Tampa Bay and the year is 2020. Ex-Navy SEAL Mitch Double Downing discovers how to tap into the internet with his mind. His new inSyte provides transparent access to the sum of all human knowledge recorded since hieroglyphics. More than mere information – Mitch can see into men's hearts and be all places at all times (easy in an 'always on' surveillance society with fourth generation tweets). Sort of like God. But inSyte has ideas of its own as the software exposes a politician's "divine" plan that will unwittingly slaughter millions of people. Is killing the man the only way to prevent Armageddon? The politician's daughter would probably disagree. And she happens to be the love of Mitch's life. Losing Kate would be too damn much collateral damage. At the center of the conflict is a wolf-like killer who will stop at nothing to murder the ex-Navy SEAL. And Mitch must come to grips with inSyte's dark side – a dominating addiction that soon controls his thoughts and places him on a steep slide to self destruction. "You've got a great book here. Some of the scenes were so powerful I could barely catch my breath. I love your characters and your imagination. In Cheslov you have a unique, gripping, disturbing and somewhat likeable antagonist. Like the best of villains, he has his own code of ethics. He doesn't like to see women abused – unless he's the one killing them. Every time he comes on stage, the novel's tension ratchets up." ---Susan Breen (author of *The Fiction Class*, featured in *Reading Group Choices 2009*) "Your dialogue is excellent. Your fight scenes are horrifying and terrific. I was able to follow the action and visualize it in my mind, which is quite an achievement on your part." ---Lisa Reardon (author of *Billy Dead*) "A bold, brazen thriller with a serious commentary on the future of information. Equal parts equal parts Crichton, Clancy and King -- spectacularly culturally prescient. As a classic merciless political operator, [Cheslov] Kirill is unforgettable and chillingly, complexly rendered." --- Perry Crowe, *Kirkus Reviews* [<http://www.kirkusreviews.com/book-reviews/indie/greg-kiser/insyte/#review>]

From reader reviews:

Ashley Mansfield:

Book is actually written, printed, or outlined for everything. You can know everything you want by a e-book. Book has a different type. To be sure that book is important factor to bring us around the world. Next to that you can your reading skill was fluently. A reserve inSyte: If suddenly you have all the answers... well that raises a lot of interesting questions. will make you to end up being smarter. You can feel a lot more confidence if you can know about every thing. But some of you think this open or reading a new book make you bored. It is far from make you fun. Why they are often thought like that? Have you trying to find best book or appropriate book with you?

Cheryl Phelps:

Nowadays reading books become more than want or need but also get a life style. This reading habit give you lot of advantages. Advantages you got of course the knowledge even the information inside the book in which improve your knowledge and information. The knowledge you get based on what kind of guide you read, if you want attract knowledge just go with knowledge books but if you want sense happy read one having theme for entertaining for example comic or novel. The inSyte: If suddenly you have all the answers... well that raises a lot of interesting questions. is kind of publication which is giving the reader unstable experience.

Michael Kendig:

Is it anyone who having spare time then spend it whole day by simply watching television programs or just resting on the bed? Do you need something totally new? This inSyte: If suddenly you have all the answers... well that raises a lot of interesting questions. can be the answer, oh how comes? A book you know. You are so out of date, spending your time by reading in this brand new era is common not a geek activity. So what these books have than the others?

Ola Hellman:

As a university student exactly feel bored to reading. If their teacher asked them to go to the library as well as to make summary for some e-book, they are complained. Just minor students that has reading's heart and soul or real their leisure activity. They just do what the trainer want, like asked to the library. They go to at this time there but nothing reading significantly. Any students feel that reading is not important, boring and can't see colorful pictures on there. Yeah, it is being complicated. Book is very important for yourself. As we know that on this period, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. Therefore , this inSyte: If suddenly you have all the answers... well that raises a lot of interesting questions. can make you feel more interested to read.
