## **Parry and Grant Encyclopaedic Dictionary of International Law** John P Grant, J.Craig Barker

For nearly thirty-five years, the international legal community has relied on one ambitious yet humble volume as a starting point for legal questions. This classic red volume is a one-of-a-kind reference tool that brings together both terminology and pertinent descriptive information on international law. This book will also be available online as an e-reference on the Oxford University Press Digital Reference Shelf.

Now in its third edition, *The Parry and Grant Encyclopaedic Dictionary of International Law* is completely updated and expanded to include increased coverage in growing areas of international law including diplomatic law, criminal law, human rights, and more. Over 2,500 entries (over a 20% increase in content from the previous edition) provides the reader with copious references for further research including cases, treaties, journal articles, and websites.

Its alphabetically arranged entries allow the reader to form a deeper understanding than a mere definition could supply and offer concise but substantial information on such essentials of international law as:

Legal terms as used in international law  
Significant doctrines  
Prominent cases, decisions and arbitration  
Important incidents  
Judicial and literary figures  
Treaties and conventions  
Organizations and institutions  
Acronyms
