Charles Stewart Parnell (1846-1891) wrote remarkably little about himself, but he has attracted the attention of many writers, politicians, and scholars, both during his lifetime and ever since. His controversial and provocative role in Irish and British affairs had him vilified as a murderer in *The Times*, and afterwards dramatically vindicated by the Westminster Parliament. It cast him as a romantic hero to the young James Joyce, and a self-serving opportunist to the journalists of the *Nation*. Parnell has been the subject of court cases, parliamentary enquiries and debates, journalism, plays, poems, literary analysis and historical studies. For the first time all these have been collected, catalogued and cross-referenced in one volume, an invaluable resource for scholars of late nineteenth century Ireland and Britain.

Divided into fifteen chapters, including a biographical sketch, the volume contains information on manuscript and archival collections, printed primary sources, Parnell's writing, Parnell's speeches in the House of Commons and outside Parliament, contemporary journalism, contemporary writing, and contemporary illustrations on Irish affairs, and a substantial list of scholarly work, including biographies, books, articles, chapters, and theses. This volume offers readers a clear record of the substantial material already available on Parnell, and in doing so offers resources to future research in this area.
