**The Secret Science of Black Male and Female Sex: The Secret Science of Sex. Where the physical body transcends into the spiritual dimension.** Mr. T. C. Carrier

While participating in sexual intercourse, the author was transported to an unseen dimension where he encountered an ancient, Afrikan goddess. She enlightened him on the sacred and secret science of sex. This book is the result of the author's encounters with her. In ancient Afrika, there was no separation from the word God and nature. To know God meant to understand how nature operates. Energy can be divided into masculine and feminine principles. Once we understand how these energies work in nature, we can fully understand the roles men and women play as the foundation that holds the Universe in a delicate balance. This book was written based on ancient Kemetic science for the upliftment of the Black race. We are being ushered into a new Age of consciousness where the feminine spirit will rule for the next 2,000 years. If one cannot make the transition into this higher consciousness, one will be left behind. Have this "Inner G" work for you instead of working against you!
